Experience

The Washington Post

Washington, D.C.

Graphics Reporter

Aug. 2024 – present

- Built a [page](#) featuring swing-state voters' live reactions to the Harris-Trump debate. Viewed over 3 million times.
- Created graphics showing [day-one promises](#) Donald Trump made during his second-term campaign.

Graphics Intern

Jun. 2024 – Aug. 2024

- Wrote a [story](#) about pro-Harris Zoom calls. Interviewed several sources and gathered data on the events.
- Covered the 2024 [Republican](#) and [Democratic](#) national conventions through a visual lens.

The Michigan Daily

Ann Arbor, MI

Software Engineer

Dec. 2023 – Apr. 2024

- Developed a PDF generator to embed crossword puzzles seamlessly into the weekly print paper.
- Implemented a cron-based scheduler to allow editors to publish puzzles at specific times of day.
- Overhauled mobile app rendering by writing new API endpoints with JSON serialized Gutenberg blocks.

Senior Software Engineer

Dec. 2022 – Dec. 2023

- Led various accessibility efforts: taught engineers how to use a screen reader; started tracking images published without alternative text; advocated and organized processes for publishing with alternative text.
- Tracked DTE [power outages](#); [presented](#) to the Michigan Public Service Commission on outage data gaps.

Managing Online Editor

Dec. 2021 – Dec. 2022

- Led a team of 40 engineers, designers, and journalists to publish over 50 special websites, visuals, and stories.
- Built the [Games website](#) to play and publish crosswords. Used Svelte and SQL. Garnered over 180,000 views.
- Developed [sink](#) to easily deploy websites and visuals to AWS S3 and ingest files and data from Google Drive.

Data Journalist

Sep. 2020 – Dec. 2021

- Wrote a series of 3 stories on [university salary data](#) in collaboration with other beat reporters.
- Developed a [live election tracker](#) for the 2021 Ann Arbor special election. Used Svelte, D3 and Python.
- Created over 20 data visuals on university [feeder schools](#), city [restaurant closures](#), [survey data](#) and more.

DETROITography

Detroit, MI

Software Engineer

May 2023 – present

- Created a [website](#) to crowdsource Detroit neighborhood boundaries using SvelteKit, OpenLayers and PostGIS.
- Launched and customized a [CKAN instance](#) for Detroit, serving over 700 datasets from 80 organizations.

The San Francisco Standard

San Francisco, CA

Data Journalist

Sep. 2022 – Sep. 2023

- Wrote 25 automated data newsletter stories localized to California neighborhoods, reaching 10,000 subscribers.

The Texas Tribune

Austin, TX

Data Visuals Fellow

Jun. 2022 – Aug. 2022

- Wrote about [public opinion on abortion](#), analyzed polling data, interviewed pollsters and created graphics.
- Produced 24 graphics on [election fundraising](#), [droughts](#), [public schools](#), the [juvenile prison system](#) and more.

Engineering Fellow

Jan. 2022 – May 2022

- Converted Django template files to flatpages, reducing code duplication and allowing for easier copy changes.
- Modified a Slack bot to show Salesforce campaign names to help evaluate real-time fundraising performance.
- Implemented several quality-of-life CMS features (e.g., copyable photo IDs, flexible grid dimensions, etc.).

Education

University of Michigan (Computer Science, Digital Studies, 2024)

Ann Arbor, MI

Skills

Data analysis and visualization

D3, Mapbox, Leaflet, Observable, Python, Datawrapper, Illustrator, QGIS

Web development

Svelte, React, Next, Django, Flask, SQL, AWS, WordPress, PHP, Docker

Mobile development

React Native, Expo, SwiftUI
